

GetFit Mining Step 1: Setting Up Your MetaMask Wallet

1. Go to Google Play or the Apple Store. Search for MetaMask
2. Install the MetaMask app on the device.
3. Click Open
4. Click on Get started
5. Click on Create a New Wallet
6. Agree to the terms, scroll to the bottom of the page, and click Accept
7. Create and Confirm the password
8. Check the box; I understand... then click Create a password
9. Click start
10. Secure your wallet with Secret Recovery Phrase ~ Click start
11. Confirm your password (the password you created in Step 7)
12. Write the passphrase down
13. Enter them in the correct order that MetaMask gave them to you.

Your wallet has now been created! Congratulations!

****Your passphrase is important** Please write it down and secure it in a safe place! Do not forget that ink does fade and you will want to make sure you have a couple of copies and NEVER share your passphrase with ANYONE! If you lose your passphrase that is the only way to recover your wallets ~ Do not lose this 12-word passphrase!*

***We recommend you enable automatic security checks.*
