

# GetFit Mining Global Compensation Plan

## Introducing the GetFit Mining Global Compensation Plan: Unlock the Rewards of Adventure!

Are you ready to embark on an exhilarating journey where every step you take leads to rewards beyond your wildest dreams? GetFit Mining proudly presents our groundbreaking 4 part compensation plan, designed to ignite your passion for sharing and revolutionize the way you earn. Whether you're an enthusiastic advocate who loves spreading the word or a charismatic influencer with a thriving network, our plan ensures that everyone is duly recognized and rewarded.

To ensure transparency, efficiency, and instant gratification, all commissions are managed by cutting-edge smart contracts. No more waiting for weeks or chasing after delayed payments. When you claim your hard-earned commissions, they are instantly deposited into your Dapp wallet, ready to be utilized or celebrated as you see fit.

GetFit Mining believes in the power of opportunity for all. That's why we've abolished the need for purchase to sell our coveted NFT Activity Band Miners. Embrace the freedom to unlock unlimited potential without any financial barriers. Your success is solely determined by your dedication and enthusiasm. You are not required to make a purchase to sell our Mining products.

GetFit Mining breaks free from the traditional constraints of requirements and ranks. You don't need to fulfill any criteria or scale arduous ranks to reap the commission benefits. The path to success is wide open, and we empower you to thrive on your own terms. Share your passion, expand your network, and let the rewards flow effortlessly.

# Team Mining Bonus

## Compensation Plan: Building a Strong Team and Earning Rewards

At GetFit Mining, we believe in the power of community and teamwork. Our compensation plan is designed to reward you not only for your personal fitness efforts but also for building a thriving community of like-minded individuals who are passionate about health and wellness.

### 1. Personal Activity Mining: Earning from Your Own Efforts

When you engage in physical activities tracked by our platform, you earn cryptocurrency mining rewards based on your personal achievements. The more active you are, the more you earn. It's a direct reward for your commitment to a healthier lifestyle.

### 2. Team Building: A Path to Greater Rewards

But that's not all. We encourage you to build a team of individuals who are just as enthusiastic about fitness and GetFit Mining as you are. When you successfully assemble a team of 100 people or more, each of whom has at least one NFT actively mining on our platform, you unlock an exciting opportunity.

### 3. Team Activity Mining Bonus: Earning from Your Team's Activity

Once your team meets the criteria, you become eligible for the Team Activity Mining Bonus. This bonus allows you to earn 1% of the activity mining data submitted by your team members. It's a powerful incentive to inspire and motivate your team to stay active and engaged.

### 4. How to Qualify for the Team Activity Mining Bonus

**To qualify for the Team Activity Mining Bonus, here's what you need to do:**

Submit your own activity mining data daily. This shows your commitment to a healthy lifestyle and sets an example for your team.

Once you have submitted your activity mining data, you become eligible to earn from your team's activity mining.

Encourage your team members to actively participate and submit their own activity mining data. The more they engage, the more you can earn from their daily activity.

As your team's activity mining data accumulates, you can submit it to earn your bonus rewards. It's a win-win situation where everyone benefits from a healthier lifestyle and greater financial rewards.

At GetFit Mining, we believe in fostering a supportive community where everyone can thrive. Our compensation plan is designed to reward your personal achievements and your ability to inspire and lead others on their fitness journeys. Join us today and start building a healthier, wealthier future together.
